News

[CIRCLE-2 Annual Progress Meeting - Presentations now available for download!](#)

Last 21st and 22nd of June, CIRCLE-2 had its first Annual Progress Meeting in Bologna, Italy. During this meeting, CIRCLE-2 presented an overview of the activities carried out during its first year. It was also showcased some of the elements of the complex European Climate Adaptation research and policy landscape that "surrounds" the network. Now the presentations are available for download. Soon the proceedings will be also available.

[CIRCLE-2 Policy Brief - "COMMUNICATE UNCERTAINTIES - Design climate adaptation measures to be flexible and robust"](#)

CIRCLE-2's first Policy Brief on Climate Change Research and Policy development is now available.

[CIRCLE-2 Policy Brief#2 - MOUNTain Areas - Climate Change Impacts, Vulnerability and Adaptation](#)

CIRCLE-2's second Policy Brief on Climate Change Research and Policy development is now available.

[CIRCLE-2 MOUNTain Kick-Off - Presentations now available](#)

The CIRCLE-2 MOUNTain Kick-Off Meeting was held successfully in Chambéry, France. The four funded projects, ARNICA; EURAS-CLIMPACT; ChangingRISKS and CAMELEON were presented to a broader mountain area research community related to climate change.

[CIRCLE-2 MED Joint Call - FINAL CONFERENCE - OUTCOMES AVAILABLE](#)

The Main Outcomes Report, the Proceedings and presentations from the CIRCLE-MED Joint Call Final Conference are now online.

[CIRCLE-2 MOUNTain French website - launched](#)

The aim of the CIRCLE-2 MOUNTain call is to increase knowledge of options, premises and barriers for climate change impacts and adaptation including the relationship between adaptation and mitigation in mountainous areas. Special emphasis should be laid on the involvement of decision makers / developers and relevant stakeholders.

[Bridging the gap between Modelers and the Impact community - Summary report NOW AVAILABLE](#)

Who are the end users of the climate scenarios? What do the users need? How should the demand be met? These were some questions raised during the workshop "Bridging Climate Research Data and the Needs of the Impact Community" organized by EEA, IS-ENES and CIRCLE-2. Main conclusions from the Workshop are now available for download.
