CHANGE II](#)
24-26 September 2014

News

[\[CIRCLE-2 BOOKLETS RELEASED\] Now available for download](#)

CIRCLE-2 just published 3 Booklets with the main messages of some of its tasks: 1) Results of projects funded by the CIRCLE MOUNTain Joint Call "Climate Change Impacts and Response Options in Mountainous Areas" 2) Analysis and assessment of best practices of CIRCLE-2 science-policy interface 3) Assessment report on the transferability of knowledge, data, methods and tools developed in CIRCLE-2's Partner and Contributing Partner countries The booklets are now available for download

[\[CIRCLE-2\] workshop "Cross-sectoral Vulnerability, Risk and Economic Assessments of Climate Change Impacts – What is needed for adaptation strategies?" - Presentations now available](#)

Last February 11, it was held in Berlin a workshop that aimed investigating the different needs of the political adaptation process in comparison to the different methodological approaches for comparing and assessing climate change impacts across sectors. The presentations are now available.

[\[CIRCLE-2/EEA\] "Adaptation Platforms" Workshop - Report and Policy-brief now available](#)

The workshop on "Adaptation Platforms in Europe: Addressing challenges and sharing lessons" was held in Vienna from 7 to 8 of November, 2013. The intention was to provide an opportunity for platform managers and developers to explore lessons learnt, experiences and challenges associated with developing and delivery of adaptation platforms. The outcomes of the workshop are now available in a full report and policy-brief.

[\[CIRCLE-2/DLR\] workshop on "science-practice collaboration on climate change adaptation between Europe and low-income-countries" - Presentation now available](#)

With European research funds on climate change adaptation expected to increase considerably in the coming years, it is important to explore ways of spending this as effectively as possible, in particular through improving science-practice interactions for the benefit of effective adaptation in low-income countries. This was the background of the international expert workshop on 29 January 2014 organised by CIRCLE-2 and the German Development Institute.

[CIRCLE-2 report on the Science Practice Sessions of the European Conference on Climate Adaptation \(ECCA\) - report released](#)

CIRCLE-2 representatives were present in ECCA science-practice sessions to take some home lessons and analyse this complex and challenging interface.
