

International Conference “Deltas in Times of Climate Change”, Rotterdam, the Netherlands,
29 September - 1 October 2010

SESSIONS ON COLLABORATION BETWEEN DELTAS, ESTUARIES AND COASTAL WETLANDS IN EUROPE

Two CIRCLE-2 ERA-Net sessions will explore European delta collaboration. The first session, called *Deltas in Europe: opportunities for research and policy collaboration (DP RE 5.5)* will be dedicated to presentations on European delta regions not covered in other sessions:

- *Climate Impact Research & Response Coordination: Delta research needs, Tiago Capela Lourenço, Portugal*
- *The global and local anthropogenic impacts on Danube Delta in the sustainable development perspective, Roxana Bojariu, Romania*
- *Potential climate change impacts, vulnerability and adaptation (CCIVA) plans in Rhone, presented by François Sabatier, France*
- *Towards a joint estuarine response to the threats of climate change, presented by Patrick Meire, Belgium*

Venue: Diamond Room I

Time: Thursday 30 September 09.30-11.15

The second session DP C 6.2: CIRCLE will be a “brain-storm” session. Its goal will be to discuss opportunities for transnational delta research in Europe. This also includes other deltas (Rhine, Po, Elbe, Thames). Chair of both sessions is dr. Rob Swart, Wageningen UR, the Netherlands.

Venue: Van der Veeken Room

Time: Thursday 30 September 11.15-12.30

The Coordination of CIRCLE-2 looks forward to welcoming you and to discuss with you the possibilities for future jointly delta research.
